About Us

“When we created the company in 2006, we defined three main principles of Grand Capital: trust, quality, and reliability. This became the basis for everything we have done since. We decided to put the interests of traders above all else, which helped us earn the trust and loyalty of thousands of clients, many of whom have been with us since the foundation, motivating us to work even harder.”

Grand Capital is an international brokerage company providing services for trading and investment in currency and derivatives since 2006. We work in the financial market retail industry and provide services for private clients worldwide.

Our award-winning affiliate program allows us to offer high-quality services to clients in their native languages, even in countries with no Grand Capital offices.

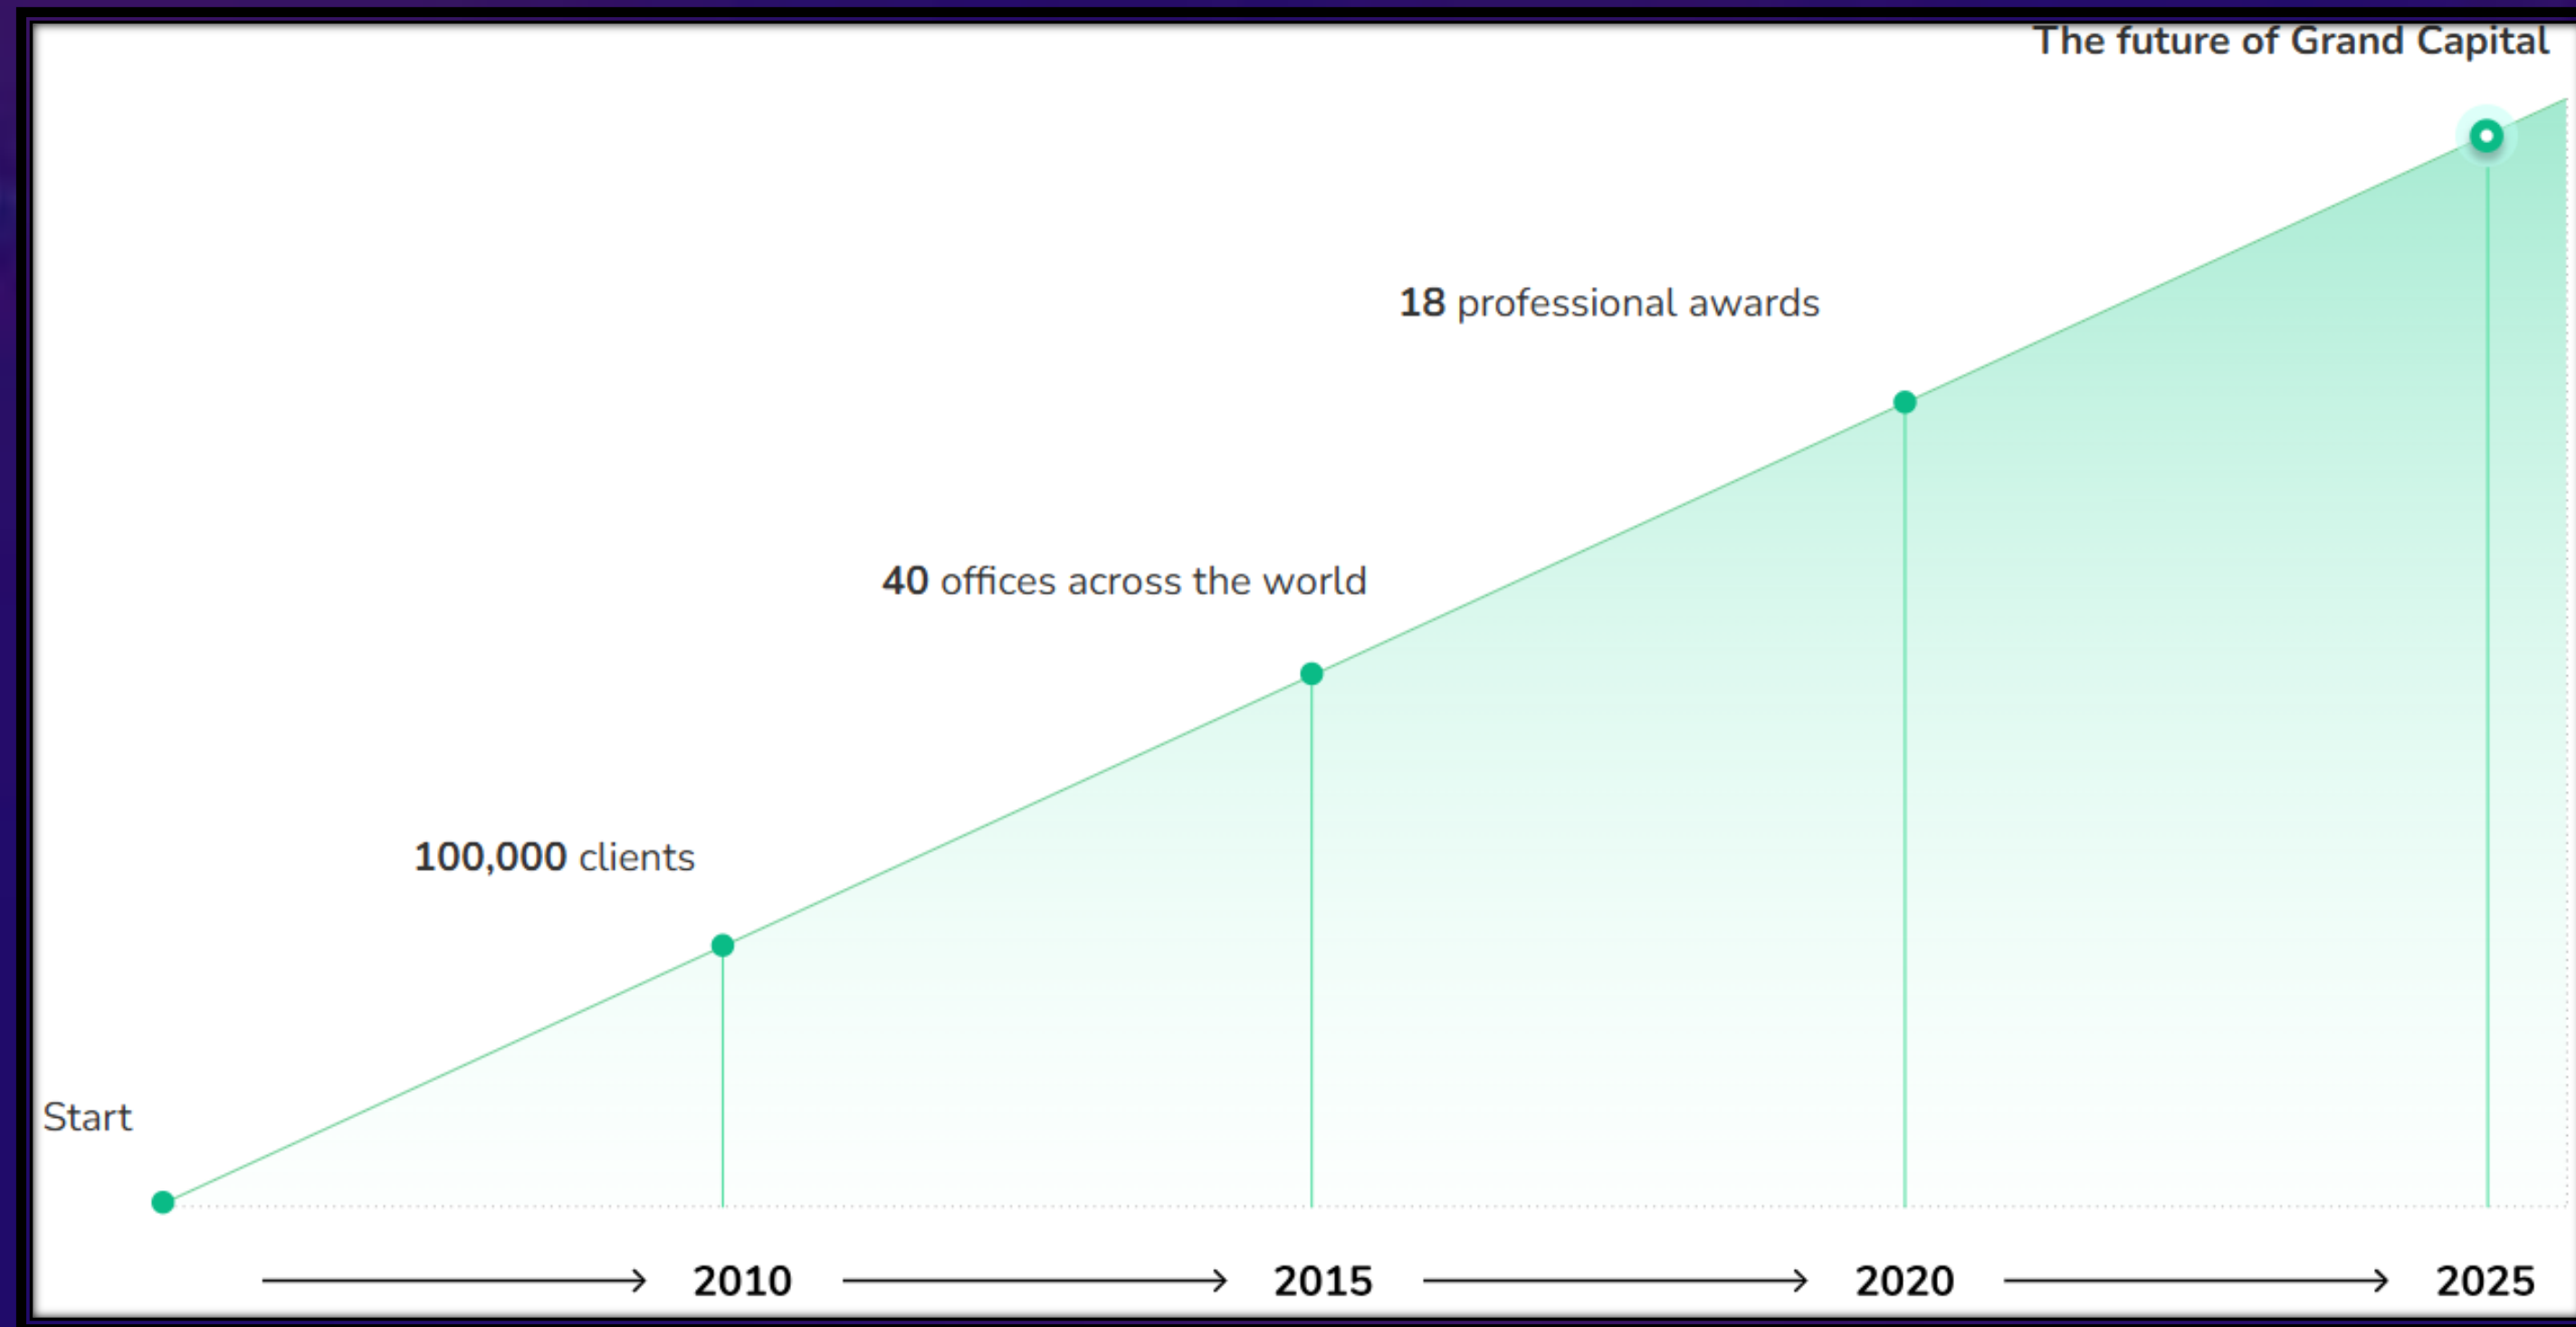

Continued

Grand Capital Fx, we are constantly developing and innovating ways to make it really easy for investors to handle their funds and deposits & withdrawals in very simple, intuitive, and straightforward ways. We have repeatedly strives towards saving your time and making things continent for you. We make sure to deliver fast transfer processing with the best exchanges which you can track via your account.

Our Timeline

Grand Capital — Financial stability

Grand Capital received 18 awards from the professional community, including Best Forex Broker, Best ECN Broker, Best Trading Technologies, and a special prize for Stability in Forex. This is proof of reliable operation, as one of the best indicators of trust in a financial partner is stability and experience. Our company has been providing services for 16 years and fulfilling all client obligations.

How To Earn with Grand Capital

The company offers two options: independent trading and investing.

Trading at Grand Capital

Traders appreciate the variety offered by the Standard account (currency, CFDs on stocks, indices, commodities, metals), as well as the excellent trading conditions of ECN Prime and MT5 — they are designed to meet the requirements of the most demanding traders: tight spreads, high liquidity, immediate execution. Algorithmic trading is available on all accounts, including the possibility of creating your robots in MetaTrader 5. Trading is available on three platforms: MT4, MT5, and WebTrader.

Investment Opportunity in Grand Capital

Grand Capital offers two investment services: A copy trading platform and investment portfolios. Investors prize copy trading because it's easy to use and doesn't require deep trading knowledge. The Analytics Department at Grand Capital produces investment portfolios. They are created based on the analysis of a large pool of economic data while considering the current global political situation. The end product is a balanced portfolio with an attractive profit rate.

Ready To Begin?

What would be a good initial deposit at Grand Capital?

In most cases, the recommended starting amount is 1,000 USD. This sum is sufficient for trading any instruments, can withstand a drawdown, allows to hedge volatility risks in currency markets with commodity CFD trades.

How to open a trading account?

After you register, a Standard trading account will be created for you automatically. Make a deposit using a bank card, a payment system or cryptocurrency. If you're depositing via bank card, you'll have to pass a verification procedure and provide all the necessary documents required by the processing system.

What's next?

Start trading. First you'll need to download a trading platform: MT4, MT5 (for experienced traders) or mobile app (works for everyone), choose an instrument and start trading. The most popular currency pairs for trading are EUR/USD, USD/CHF, USD/JPY, BTC/USD, ETH/USD, LTC/USD.

If you prefer trading commodities, turn your attention to oil, gas and metals, and if you're interested in stocks and indices, you can choose from our wide selection of these instruments.

If you don't know what to start with, visit our page for beginners or contact your personal manager through the ticket system in your Private Office.

What we Offer?

What investment and management services are available to you?

Copy trading is for investment and management. Connect to the available strategies that are proven successful and create your own. The service is fully automated and easy to use, provides a high level of capital protection, allows setting limits for profit and loss, weekly profit.

Recommended initial deposit is 2,000 USD. Minimum amount of investment in one strategy is 50 USD. Open a copy trading account.

Choose an investment portfolio and make money from stocks of major corporations.

Readily available ideas for trading, free advice, high profit rate.

You can also take advantage of our free service and order a custom portfolio. Compare services

What trading instruments do we have for beginners and professionals?

We offer 500 instruments for trading: CFDs on stocks, indices, metals, commodities, currency pairs, cryptocurrency.

ECN and Crypto accounts are available to professional traders.

Beginners may be interested in our cent account Micro. For the most clients, the recommended account type is Standard. Algorithmic trading is available on all accounts, including the possibility to create of your own robots in MetaTrader 5. The following trading platforms are available at Grand Capital: MetaTrader 4 and MetaTrader 5 in desktop and mobile versions.

What are our guarantees?

We set high requirements for liquidity providers and aim to provide the most favorable conditions for your work with the market: small fees, highly liquid instruments, immediate execution, 24/7 support. We allow using any robots and EAs, high-margin trading is available. Risk diversification is possible thanks to the variety of accounts and instruments. Every client is eligible for up to €20,000 coverage from the Compensation Fund of the Financial Commission (FinaCom). Moreover, the funds of our clients are protected by the cutting-edge blockchain technology of Serenity Escrow that prevents any manipulation with the deposit.

GrandCapital Our Support

What makes Grand Capital different from other companies

We profit when you profit.

Grand Capital is a provider of technology for trading in currency and derivatives markets active since 2006. Over these years, we have become a financial partner of more than 1,500,000 traders all over the world. Stable and reliable operation of the company paired with its vast experience in the field allowed to implement the concept of a long-term mutually beneficial partnership. High standards of the provided services and technology earned prestigious awards from the professional community. Our work is for the benefit of the client, and our income relies on fees for using our services and instruments.

What privileges do you get with Grand Capital?

You become a part of the international trading community and use the most advanced services in the field of trading and investing. You participate in loyalty programs and get firsthand access to new instruments and technologies as they are introduced by the company. Each client gets their own personal manager who will help them become more successful. Working with a stable world-class company, you won't have to worry about the safety of your funds.

How to start working with Grand Capital if you have no experience?

First you need to decide whether you want to work as an independent trader or invest funds. If you plan to trade on your own, start with our classic account Standard, recommended deposit amount is 500 USD. Download the mobile app. Visit our page for beginners.

If you plan to start as an investor, open a Copy trading account and start copying the top-performing strategies in the rating: it's really a low-risk and profitable way of earning for investors of any level of experience with any budget.

- ❖ Excellent career prospect
- ❖ Growth and development in a friendly and dynamic work environment

What is Forex?

Forex (also known as FX) is simply shorthand for “foreign exchange”, which is the trading of one currency for another. A forex trader speculates on the price movements of one currency against another with the aim of making a profit.

The Forex Market's Huge

Forex is the world's most traded market with over \$7.5 trillion* being traded every day. To put it in perspective, the daily average volume for the S&P 500 is only \$553 billion (2.27% of the size of forex)

You've Probably Already Traded FX

When you travel to another country, you usually exchange your money into the foreign currency to spend money there. Sometimes, whatever you don't end up spending you'll convert back. This is forex.

Currencies Come In Pairs

You're always trading one currency against another, such as the US dollar against the Canadian dollar (USD/CAD). This is called a forex pair.

There Are Always Potential Opportunities

Forex is an exceptionally liquid market, and it's reacting all the time. This makes it especially attractive to day traders looking for short-term wins.

There's No Centralized Exchange

Unlike stocks which use exchanges such as the New York Stock Exchange, forex is traded by a decentralized global network of banks.

The FX Market Never Sleeps

You can trade forex 24 hours a day, 5 days a week, from Sunday 5PM to Friday 5PM. This is because the time zones of the four trading centers (London, New York, Sydney, and Tokyo) overlap with each other. So, when one closes, another opens.
